

Heartful Leader as Coach

Nurturing Humane Leaders for a Better Tomorrow

Aligning inner wisdom and outer strategy to build trust, drive results,
and lead sustained transformation in a rapidly evolving world.

THE LEADERSHIP CONVERSATION THAT NEEDS TO HAPPEN

The Most Pressing Questions Leaders Are Asking Today

In every organisation, leaders are grappling with the same unresolved tensions. These are not strategy problems, they are people-and-presence problems that coaching solves.

"How do we enable our leaders to engage with their teams for solutioning, rather than just directing?"

"How do we enable our leaders to balance time, skills and resources across new and varied expectations?"

"How do we foster a culture of preserving innate strengths and unlocking the untapped potential of our people?"

"How do our leaders become truly inspirational, empowering teams to build an upward momentum?"

"How to develop an adaptive mindset, creating an environment for enhancement of individuals and teams?"

"How can our leaders communicate impactfully, with authenticity, care for relationships, not just tasks?"

No Team Ownership

Teams wait to be told. Leaders feel like they are pulling everything alone, despite investing time and energy in their people.

Accountability Gaps

Commitments made in meetings dissolve by Monday. Leaders struggle to hold people accountable without damaging relationships.

Dependency Trap

People escalate everything upward. The leader becomes a bottleneck, solving problems that their team should own.

Feedback Falls Flat

Performance conversations become confrontations or are avoided entirely. Growth conversations never land with lasting impact.

Talent Walks Out

High-potential people leave because they feel unseen and unchallenged. The cost of turnover is immense.

Resistance to Change

New initiatives meet invisible walls. Leaders cannot understand why intelligent people resist what is clearly better.

What is Heartful Coaching?

"Heartful Coaching is partnering with the client in an intuitive process using heart-based wisdom through compassionate presence and authentic connection to raise awareness, expand consciousness and enable balanced choices for sustainable self transformation."

It is a partnership where the coach engages clients in a thought-provoking and creative process, using tools and techniques that increase self-awareness and awaken intuitive wisdom, empowering clients to shift perspectives, refine actions, and maximise personal and professional potential.

The Being and Doing of a Heartful Coach

Most leadership development touches only skills. This programme begins within, structured around two inseparable dimensions of coaching mastery.

Being, Presence & Consciousness

Developing the inner quality of compassionate presence, emotional regulation, and intuitive awareness through Heartfulness practice. The coach's state of being shapes every conversation.

Doing, Structure & Skill

Mastering focused conversational structures, coaching models, Heartful Questioning, and Deep Listening to conduct confident, structured coaching conversations.

Holding Space, The Heartful Coaching Space

Learning to create and sustain a safe, expansive container where clients feel truly seen, heard, and supported to explore their own transformation.

What is Heartfulness?

A globally practised system of inner development focused on emotional regulation, clarity, and heart-centred awareness. It forms the foundation of transformation and presence for both coach and client.

What is ICF?

The International Coaching Federation (ICF) is the world's largest professional coaching organization:

60,000+ coaches globally

Presence in 150+ countries

FROM PROBLEM TO POSSIBILITY

WHAT YOU WILL LEARN

Your Next Step: The Curriculum

Built around four integrated learning domains. This is not a toolkit.
It is a transformation of how you show up as a leader.

1. Coaching Capability

- When to coach vs mentor
- Deep & active listening
- Powerful questioning
- Goal setting & structured conversations
- Feedback & heartfelt observations

2. Human Awareness

- Emotional intelligence in action
- Feelings & needs awareness (RARE)
- Trust, psychological safety, valuing diversity
- Recognising and working with resistance

3. Leadership Application

- Developmental conversations: IDEAS, Appreciative Inquiry, NLP
- Delegation in coaching style
- Building team ownership & accountability
- Celebration & championing
- Performance coaching conversations

4. Inner Development

- Meditation and Heartfulness practices
- Sustained clarity, resilience, and equanimity
- Personal coaching style development
- Peer practice and accountability circles
- Somatic and presence-based awareness

PRACTICE • REFLECTION • FEEDBACK • REAL APPLICATION

Every module includes live practice in peer coaching triads, real-world application assignments, and facilitated group reflection, ensuring skills are embedded, not just learned.

CHOOSE YOUR PATH

Programme Formats at a Glance

Both formats deliver the full curriculum and lead to equivalent outcomes.

Contact us for upcoming cohort dates in your city. Corporate group bookings available. Customised in-house programmes for organisations.

Why This Matters for Leaders

Leaders who coach from the heart generate RARE IDEAS by accessing deeper intuition, listening beyond words, and holding space that invites genuine change.

VOICES OF TRANSFORMATION

What Do our Program's Participants Say

Leaders should adopt a coaching role to foster a strong, value-driven culture, empowering individuals and enhancing accountability. Coaching also increases leaders' self-awareness, allowing them to recognize their own behaviors and biases, leading to clearer responses and adaptability. Ultimately, coaching develops teams, refines leaders, strengthens culture, and drives sustainable growth.

Gaurav Uppal
MD- GSI Logistics

Deep's facilitation and coaching during our Leader as Coach Program at DRIV (Tenneco) was very well appreciated by all the HODs who participated to become Leader as Coach. I fully recommend Deep for such programs where leaders start creating more leaders under them.

Gyan Pandey
President & Chief Marketing Officer
